

## Baggage File Report

---

Thank you for downloading the Baggage File Report. If you have any questions regarding this script, or if you need help with RoboHelp, don't hesitate to [contact us](#) to find out how we can help.

### Import the script

---

- 1 Open the Script Explorer. (**View > Pods > Script Explorer**)
- 2 In the Script Explorer, click on the blank space below the scripts so that no script or directory is selected.
- 3 Click **Import Script files** The icon is a small blue square with a white document symbol and a green plus sign.
- 4 In the file picker, select the BaggageFileReport.jsx file and click **Open**.

### Run the script

---

- 1 Open the Script Explorer.
- 2 Select the BaggageFileReport script and click **Run Selected Script File** ().The icon is a blue document with a yellow lightning bolt and a gear symbol.
- 3 Once a text file with the report shows up, the script is done.
